Subject: RE: Pillon interview

I am available after 12pm on 1/17, and anytime on 1/18. I work at an alternative location on 1/19, but if that is the only day that works for Mr. Pillon, I can come to downtown Seattle for the meeting.

Let's plan to meet at the state offices Scott, rather than EPA. We have a somewhat cumbersome check-in and security process that is not very convenient for people arriving at different times (i.e., you arriving 15 or 20 minutes before Mr. Pillon).

Also, keep us posted on the sample retention. I believe we can retain the samples longer if needed, however there is an additional cost to EPA if we do that – Jeff please correct me if I'm wrong.

Thanks,
Kris

You guys appear to be only about 5 blocks from us so it doesn't matter to me.

Thanks. Kris is out of the office until tomorrow, so I will await her availability on those dates and then set something up. Would you rather meet at your offices or mine?

Scott

I am open on 1/17-19. Kris and I are both based in Seattle on 6th and Seneca.

Mr. Fowlow and Ms. Leefers;

Mr. Pillon has requested that I set up an in-person (if possible) interview with Jeff. I assume he wants it to be in-person so he can either show you a map of his property or draw you a picture of it and trace what he believes the water flow to be and then correspond that picture to where your samples were taken. We can have the interview at my office in Seattle or at EPA in Seattle or some other location convenient to both of you (Jeff - I actually don't know where you are stationed). My thought is that we will get together 15 minutes or so prior so I can answer any questions you have and again go over the interview process and case.

Mr. Pillon is available tomorrow, but I told him that that was rather short notice and I was doubtful all the required parties could make themselves available. If that does not work then we are looking at some time after January 15 as I am out of town until then.

Please give me some dates and times that will work for you both.

Thank you for your ongoing patience with this cumbersome process.
